

# GRAPHIC RANGE

Add some creative flair to your project without the hassle by choosing one of Integral Seal's purpose designed Graphic Range.

Incorporating creativity into a glass project is made easy with Integral Seal's Graphic Range. Developed a purpose built for Digital Printing the collection of patterns and textures is ensured to impress. The comprehensive Graphic range provides shading, diffuses light and decreases glare adding a performance component to an otherwise purely decorative product.

A workflow that is created entirely digitally allows for flexibility when designing unlike tradition screen printing methods. The range has been designed to be scaled, coloured and configured according to each application without issue offering seemingly endless creative opportunities. Ideal applications range from external canopies, facades and railings to internal office partitions, backsplash's and shower screens.
